Experience

Junior Web Developer

NetSol Technologies · Surat, IN   02/2022 - 07/2023

- Designed and developed responsive user interfaces using HTML5, CSS3, JavaScript, and React.js in alignment with project requirements.
- Collaborated with cross-functional teams including UI/UX designers and backend developers to deliver high-quality web solutions.
- Improved front-end performance by optimizing assets and code structure, reducing load time by approximately 35%.
- Integrated RESTful APIs to connect front-end components with server-side logic and external data sources.
- Maintained and updated existing web applications, resolving bugs and implementing enhancements to improve user experience.
- Followed agile development practices and participated in daily standups, sprint planning, and retrospectives.
- Utilized Git for version control and collaborated via GitHub, contributing to team workflows and pull requests.

Skills

Software development, Python, HTML5, CSS3, JavaScript, React.js, REST, SQL, C#, .NET, Time management, Communication skills, Java, Springboot

Education

Computer Programming

Conestoga College · Waterloo, ON

- **Full Stack Web Development**: Developed responsive web applications using HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, and Express.js.
- **Database Management**: Designed and managed SQL (SQL Server, MySQL) and NoSQL (MongoDB) databases for efficient data handling.
- **Mobile and PWAs**: Built cross-platform mobile apps with Flutter and responsive PWAs using mobile-first design principles.
- **C# ASP.NET Core MVC Development**: Developed scalable web apps using MVC architecture, Entity Framework Core, middleware, and dependency injection.
